

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	14 October 2022
Team ID	PNT2022TMID26214
Project Name	Project – Car Resale Value Prediction
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	Registration through Form Registration through Gmail
FR-2	User Confirmation	Confirmation via Email Confirmation via OTP
FR-3	User Profile	Personal / General details of the user.
FR-4	User 's vehicle information	Features of the car such as Model , brand , Registration number, manufacturing year , fuel type , engine type

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	A Simple , User friendly user interface which can give solution to the user .(i.e resale value)
NFR-2	Security	It is secured and encrypted application with no spam redirects or hyperlinks.
NFR-3	Reliability	Reliable and consistent prediction can be done .
NFR-4	Performance	Performance does not depend on amount of end users. It is scalable , consistent with no delay
NFR-5	Availability	Uninterrupted services must be available other than any server issues .
NFR-6	Scalability	It can handle any amount of data irrespective of number of users. It can perform computations in a fast & cost effective manner.
